

Ladies and Gentlemen. Please. No-call means no call. I hate my telephone, like I now hate my computer. Neither is a pleasure to have or to use anymore. (There was a time when I enjoyed both appliances; not any more.) Telemarketing is like spam.

Don't get cozy with the industry. Don't be like other regulatory agencies and "meet the industry halfway". They do NOT perform a service, THEY SHATTER OUR PRIVACY.

Show some guts. Let New Jersey have a stricter law; in fact, make the Federal Law much stricter than it is now.

Thank you.
